Examples

Examples of usage from previous sketches in Forma Design

The screenshot shows the Autodesk Forma web interface. At the top, there's a header with the Autodesk logo and navigation links for 'Site design', '+ Add', 'Analyze', and 'Actions'. Below the header, there's a sidebar with 'Recent' sections for 'Projects' and 'Members', and 'Hub settings'. The main area displays 'My recent projects' with two items: 'Torgallmenningen' (1 day ago) and 'Torgallmenningen' (3 days ago). To the right, there's a 'Discover' section with a grid of icons representing different actions and resources. On the far right, there's a sidebar with social sharing options and links to 'Forma blog', 'Community forum', and 'Youtube channel'.
