

Icons

Our icon library can be used to enhance visual communication and user interaction in Forma.

Icon size

16px

Our default icon size is 16px, with exceptions for areas like the analysis panel or the toolbar where the icon size is 24px to create a bit more visual hierarchy.

Common UI icons

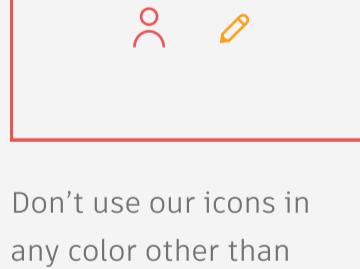

+	-	▼	>	<	>	↖	↗	☰	⊖

🔒	🔓	👁️	👁️	⬇️	↗	👤	✏️	DRAW	EXPORT
Lock	Unlock	Eye visible	Eye hidden	Download	External link	User	Edit	Draw	Export

Do's and don'ts

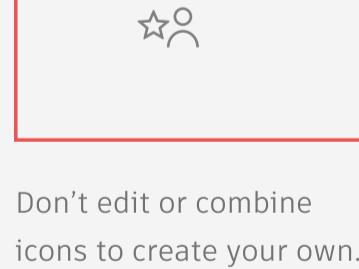

Our icons meticulously designed with a consistent style. They are crisp, light, simple, and to the point. The use of icons can help limit wordy descriptions and add scanability by communicating quickly.

Don't use our icons in any color other than default icon color.

Don't combine other elements with our icons.

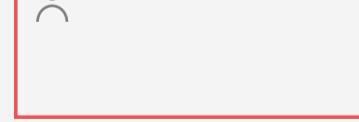

Don't edit or combine icons to create your own. Use single icons only.

Don't adjust the stroke width.

Don't use fills.

Don't place icons close to the gutter/border/graphics/edges. Always use the default 16 px spacing.
